**SENIOR XAMARIN
MOBILE DEVELOPER 2**

SENIOR XAMARIN MOBILE DEVELOPER

Work Experience

Crossworkers (June 2017 - present)

Senior Xamarin Developer

- Xamarin.Forms, Xamarin.iOS, Umbraco SDK, Autofac, MVVM, JIRA, TFS, Scrum, Contentious delivery, App Center.
- Project lead for MIR app from grooming to publishing and maintenance.
- Created infrastructure and development frameworks for mobile applications to be used across Xamarin.Forms applications that used Autofac for dependency injections and achieved automatic compliance for the MVVM pattern using only name convention for views and view models.
- Suggested combining RealmDb with Redux.NET for complete offline support per customer requirement and for automatic view model state update on database update.
- Started a policy to upload reusable components repository on private nugget server for using across the apps by all other developers.
- Used barcode scanners, printers and beacons to enhance inventory operations automation and save customers time specially in large inventories.
- Worked closely with Umbraco to test and enhance their .NET API.
- Worked with UI/UX designers to create a highly customized UI with Xamarin.Forms framework.
- Worked closely with the project manager and product owner in task management, estimations and prioritization to make sure we are able to meet the deadlines and support our customer's business.

SENIOR XAMARIN MOBILE DEVELOPER

Work Experience

About Ghaly Motors (Sep 2015 - June 2017)

Associate Software Engineer

- C#, WCF, Web API 2.0, ASMX Web Services, SQL Server 2008, 2012, .NET Telerik, UML Visual.
- Paradigm, Google Maps API.
- Worked closely with the management team to create a framework for fleet distribution of London Cab Egypt and set the metrics which we will work to optimize for the fleet management.
- Implemented and designed (using visual paradigm) a highly flexible software simulator to using plugin framework design pattern to test out different distribution strategies, saved the simulation results in a SQL Server database and created reports for the management for decision making.
- Worked with the operation team to create a tracking system for London Cab and SIXT shuttles and visualize it using Google maps.
- Worked with London Cab partners to provide them with portals to enjoy their partnership benefits.
- Worked with Payfort and Fawry to integrate their payment solutions with SIXT.
